

Valencia decorative panels (face printed mirror and glass) Care and Cleaning Instructions

Cleaning

Valencia glass should only be cleaned when cool to touch and should never be cleaned while in direct sunlight. Use only a soft damp cloth with mild dish soap and water to remove dirt and grease using very light pressure. Dry lightly with a soft clean cloth. Any stubborn dirt should be lightly sponged off, being careful not to scratch the surface. All traces of water and cleaning solution must be removed from the glass and frame.

Caution: excessive wiping under moist conditions may cause the decorative surface to lose adhesion.

Do not use metal scrapers, blades or steel wool on the decorative surface. Avoid household cleaners and abrasives. Mild dish soap is all that is required. The following cleaning agents should not be used under any circumstances:

- Scouring and abrasive agents (abrasive powders, scouring pads, steel wool)
- Polish, washing powder, furniture cleaner, bleach
- Detergents with strong acids and acidic salts
- Steam cleaning equipment
